Elastic Japan Paint.

A PERFECT protection for Tin Roofs and exposed Metalic Surfaces. The undersigned are prepared to apply their ELASTIC JAPAN PAINT to Tin Roofs, Iron Fences, Smoke Stacks, all Outside Iron Work and to Shingle Roofs. That this invention is the most valuable article known for these purposes has been perfectly and abundantly demonstrated by its extended application during the past five years under the most severe tests possible. It is absolutely water-proof, and its durability, fire properties, hardness, cheapness, and its adaptability to any and every climate, under all circumstances of exposure, make it the most perfect and most valuable article for these purposes known to the world. We fully warrant it to be unaffected by frost, and that neither heat or cold will cause it to crack, roll or blister. Leaky Roofs are stopped by using cement in connection with the Paint.
